\$10 Children (Ages 6-12)

a Festival of Lights

Diwali is the festival of lights and is celebrated with great zeal by all Indians all over the world. It is a festival of joy, splendor, brightness and happiness. It is one of the most important and vibrant of the Indian festivals. At the metaphysical level, Diwali is a festival signifying the victory of good over evil. Celebrations take place everywhere in India. At dusk, when darkness unfolds, you can see a spectacular illumination of tiny flickering lamps adorning homes, buildings, and streets. All this illumination and fireworks, joy and festivity, is to signify the victory of divine forces over those wickedness.
